

D-Link RJ-45 LAN Cable|2 Mts

Product Specification

|                       |                                                     |
|-----------------------|-----------------------------------------------------|
| Brand                 | D-Link                                              |
| Model No              | NCB-C6UGRYR1                                        |
| Color                 | Grey                                                |
| Type                  | CAT6 Networking Cable                               |
| Cable length          | 2 Meters                                            |
| Data Transmission     | 1 Gbps                                              |
| Conductor Size        | 24 AWG                                              |
| Connectivity          | 2 RJ45                                              |
| Insulation resistance | 35M Ohm                                             |
| Durability            | 750 matching cycles                                 |
| Standards             | TIA   EIA-568B.2   TIA   EIA-568C.2   IEC 60603-7-4 |
| Frequency             | 250 MHz                                             |
| Supported Temperature | -10 ~ 80oC                                          |
